Dear Phil:

I want to extend our thanks for your recent gift and the news that it will be matched by a contribution from Ortho Diagnostic Systems as well. We are especially grateful for your confidence in permitting us to use this assistance for discretionary purposes.

From your record of accomplishment in biomedical science and your long association with the University, I know you appreciate the flexibility which this type of funding affords, especially in helping us pursue new leads which often emerge in the course of research. It is gratifying to know that we have the active support and cooperation of someone who truly understands our mission.

With appreciation on behalf of all my colleagues,

Sincerely,

Joshua Lederberg ✓
